# MEMORANDUM FOR THE RECORD

SUBJECT: Trip Report, 5-9 May 1969

1. Location and Purpose of Visit: The undersigned attended the annual scientific meetings of the Aerospace Medical Association held in San Francisco, California, from 5 through 8 May 1969. This annual meeting, more than any other, brings together scientists, doctors, aerospace bio-engineers, and related contractor representatives from all U. S. Government agencies, military branches and foreign countries. Aside from the important scientific presentations, a great deal of "comparing of efforts" can be accomplished between various programs and the state-of-the-art in life sciences can be determined by attending the annual meetings.

2. Results of Visit: In addition to the benefits gained from attending numerous scientific presentations, many new items of equipment were examined and brochures obtained at displays set up by various life-support equipment contractors.

[redacted] who is the PCS replacement for the undersigned, also attended these meetings. This allowed him to meet many of the IDEALIST-cleared and briefed individuals in the Aerospace Medical community during one short period at one location. This introduction will help him greatly in his transition into AMS/OSA this July.
